Dear Sir:

In the Office Action dated January 10, 2007, claims 1-43 were allowed. The only formal matter remaining was an objection to the application under 37 C.F.R. 1.172(a). Upon receiving the Office Action, applicant's attorney called and spoke with Examiner Benjamin Lee, and then called Examiner Kenneth Wieder. A Submission under 37 C.F.R. 3.73(b) that was submitted December 8, 2006 identified J2D, LLC as "the owner of the patent application" and identified the assignment by reel and frame number. The assignment indicates that J2D, LLC is the owner of the entire right, title and interest.

On January 5, 2007, applicant's attorney received a telephone message from Examiner Kenneth Wieder indicating that the Submission under 37 C.F.R. 3.73(b) submitted in December of 2006 is acceptable, and that no further Submission in response to this Office Action is required.

First Named Inventor: Jennifer Patterson

Now that the previously filed Submission under 37 C.F.R. 3.73(b) has been accepted, this application is in condition for allowance. Notice to that effect is requested.

Respectfully submitted,

KINNEY & LANGE, P.A.
